## Basal Body Temperature Chart

### Date

| Day of Cycle | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 | 21 | 22 | 23 | 24 | 25 | 26 | 27 | 28 | 29 | 30 | 31 | 32 | 33 | 34 | 35 | 36 | 37 | 38 | 39 | 40 |
|--------------|---|---|---|---|---|---|---|---|---|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|
| Basal Body  |   |   |   |   |   |   |   |   |   |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| Waking      |   |   |   |   |   |   |   |   |   |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |
| Temperature |   |   |   |   |   |   |   |   |   |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |

### Notes

- Basal body temperature is the lowest temperature of the cervical mucus, typically measured at the time of ovulation.
- It is used to chart the menstrual cycle and predict ovulation and the fertile window.

### Instructions

- Enter the date in the 'Date' column.
- Enter the time in the 'Time' column.
- Calculate the 'Basal Body Temperature' from the cervical mucus readings.
- Predict ovulation and the fertile window using the chart.

### Tips

- Basal body temperature is elevated during ovulation.
- Monitor for at least three cycles to establish a pattern.
- Use this chart in conjunction with other fertility tracking methods.
